

Preventive Maintenance

We are confident in the quality and reliability of your machines and the service of its manufacturer. But even the best made equipment needs to be properly maintained.

In the past, the ideology was, "If it's not broken, don't fix it." We believe a better way to approach machine maintenance is, "If it's not broken, let's keep it that way."

Completing timely maintenance on the machine tool over time will minimize catastrophic breakdowns and will reduce the total cost of ownership.

Machines will work at full efficiency creating profitable uptime, while reducing downtime. Problems are recognized earlier and the chances of complete machine breakdown is reduced.

WHAT 1 MINUTE DOWNTIME COSTS			
LARGE ENTERPRISE	97 USD 	7,900 USD 	22,000 USD
MEDIUM ENTERPRISE	55 USD 	4,500 USD 	15,000 USD
SMALL ENTERPRISE	12 USD 	2,300 USD 	8,000 USD
	SERVICE INDUSTRY	DATA CENTRES	MANUFACTURING INDUSTRY

So, if you are now buying into the importance of protecting your investment in your machine tool, you might be saying to yourself, "But I don't have the time or expertise to properly maintain my machine." That's where KL Industrial Service (KLIS) can help – on site within 24 hours.

By choosing to let us help you meet your maintenance needs, you are getting manufacture-factory-certified technicians that are experts on your equipment without waiting for the technician to extra fly in from overseas on your costs.

They know what to look for and have seen it all in a variety of manufacturing environments. And by scheduling this work through KLIS, your own maintenance staff is freed up to work on other commitments.

No more putting off the maintenance because your staff is busy working on other critical equipment.

Our one-year-maintenance partnership

To provide the maximum protection and minimize the cost of ownership, we offer a **renewable 1-year maintenance partnership** at fixed costs.

With this option, you get a monthly inspection by our certified personnel following a clearly laid down inspection plan for your equipment to ensure that all is well, and we fully cover the labour cost for these inspections during that time.
