

Reduce costs whilst improving patient care

Health technologies and facilities are essential for a functioning health system. Medical devices in particular are crucial in the prevention, diagnosis, and treatment of illness and disease, as well as patient rehabilitation. Recognizing this important role of health technologies, KL INDUSTRIAL SERVICE provides storage solutions, transport logistics, technical installation and maintenance services for hospitals to ensure improved access, quality and use of devices and facilities in hospitals and clinics at an affordable price. We work with leading Medical Devices and technologies manufacturers to cover costs and to continuously improve both preventive maintenance- and emergency repair services.

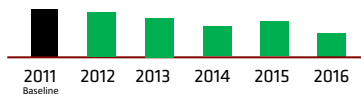

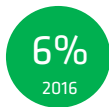

A REAL BARRIER TO PATIENT CARE

Device & Facility downtime it is a real cost-driver for providers, and a dangerous barrier to treatment and satisfaction for patients

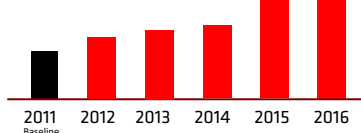

HIGH PATIENT CARE & PATIENT SATISFACTION

Devices with effective Maintenance Plan Hospital Devices Reactive Repair down-time at 6% in 2016

NEGATIVELY IMPACTING PATIENT CARE AND PATIENT SATISFACTION

Devices without efficient Maintenance Plan Hospital Devices Reactive Repair down-time at 36% in 2016

Minimising risk and costs

Medical devices and facilities are assets that directly affect human lives. They are considerable investments and in many cases have high maintenance costs. It is important, therefore, to have a well planned and managed maintenance plan that is able to keep devices and facilities in a health-care institution reliable, safe and available for use when it is needed. At KL INDUSTRIAL SERVICE we fully understand the importance of quality and safety, and offer through our skilled and certified Medical Device technicians customised Device Care Maintenance programs to prolong the useful life of your devices, to reduce costs and to minimise the risk of down time. Our Maintenance Strategy includes procedures for inspection, as well as preventive and corrective maintenance to ensure functionality when needed.

Our Device & Facility Care Maintenance Plan

We understand our clients' need to rely on the expertise of a professional company. KL INDUSTRIAL SERVICE has the required skills, experience and equipment to implement a comprehensive Device Care Maintenance plan at affordable costs. Our Device Care Technicians are trained in Germany and are certified by various Device Manufacturers, and our company is **certified for the provision of warehouse solutions, logistics, installation and technical maintenance of Medical Devices** (Good Distribution Practice for Medical Devices (GDPMD)).
